

Promoting Safety. Reducing Risks!

Safe, Responsible Training.
Get TIPS certified with NCPC!

What is TIPS?

TIPS was the first alcohol server training of its kind.

Having trained over 11.5 million people worldwide, TIPS is used by private businesses, the alcohol industry, insurance companies, universities, and more! By training your staff to recognize signs of intoxication, you can reduce the chance of an alcohol-related incident, ensuring customer satisfaction and promoting community safety.

Who can be trained?

TIPS serves both commercial and consumer markets. NCPC provides On-Premise and University trainings to ensure that your establishment is serving alcohol in compliance with state laws and safety regulations.

How do we get started?

Through the NCPC Partnerships for Success (PFS) Program, TIPS training is completely **Free of Charge**. Contact PFS Coordinator Sophie Piffard for more details and scheduling at spiffard@riprevention.org.
