BASICS FACILITATORS TRAINING

Brief Alcohol Screening and Intervention of College Students

Help College Students:

- Reduce risky drinking behaviors
- Make informed choices about alcohol
- Meet students where they are
  - Non-confrontational, confidential, and compassionate

Training Overview:

- Virtual, 8 hours over 2 days
- Led by Dr. Jason Kilmer, professor, researcher, and nationally recognized trainer
- BASICS theory and structure
- Motivational interviewing techniques
- Conducting assessments and feedback sessions
- Practice with strategies

This training is designed for college and university professionals and students in peer support or leadership roles who work with students on alcohol, marijuana, and other substance use issues. Participants may include health educators, counseling center staff, residence life and student affairs professionals, resident advisors, peer mentors, peer educators, and others involved in substance use prevention.

Session 1

Thursday, November 5th (11:00am - 4:00pm)

Session 2

Friday, November 6th (11:00am - 4:00pm)

Training provided by University of Washington's BASICS Innovations Group within the Center for the Study of Health & Risk Behaviors
